Product Specification Sheet

Metal Detectable Cloth | PRITW-LPS50100MB

The Metal Detectable Cloth

The LPS DETEX® dry wipe / cloth is designed to be an effective all-round cleaning cloth which also reduces foreign body contamination risks by being metal detectable.

The detectable polymer mesh helps with scrubbing, adds to the strength of the cloth and provides the detectable properties

Metal Detectable Cloth Advantages

- ✓ Detectable by in-line metal detection systems
- ✓ Dry, nonwoven multi-purpose towel
- ✓ Reduce concerns of food product contamination and assist with HACCP requirements
- √ The cloth is the universal blue color to easily identify it as a non-food object
- ✓ Highly absorbent wipe material combined with polameric scrubbing surface for efficient cleaning.
- ✓ Helps to prevent costly product recall and damage to your brand
- ✓ Disposable wipe is suitable for everyday wiping tasks in critical processing areas

Product and Packaging Information

		100
80gsm	Pack Weight	0.90kg
254 x 305mm	Detectability	Metal Detectable
Polyester	Commodity Code	34039900
	254 x 305mm	254 x 305mm Detectability

Safety Certificates / Approvals

BRC Compliant ISO 9001:2015

Materials

Polypropylene (with encapsulated stainless steel fibre) scrim (netting) with polyester and rayon blended fibres hydro-entangled on to the scrim without dyeing.

Metal Detectability

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.
